

DEMO4GREEN Open Call – Selected proposal

www.eitmanufacturing.eu

PROJECT	Country	TLF
1.FLOW Manufacturing (FlowM)	Portugal	INESCTEC
2.SIMPLE - Smart machine Monitoring for better PLanning and use of rEsources (SIMPLE)	Poland	PIAP
3.Robotic Large Format Additive Remanufacturing from Recycled Waste (RARE-Waste)	Italy	MADE
4.Upcycled Posidonia Oceanica dead leaves as a filler for the fabrication of recyclable and biodegradable filaments for 3D-Printing with advanced dimensional accuracy, low embodied energy and cost (PHEELAMENT)	Greece	LMS
5.System for intelligent shading control in agrivoltaics parks applied to vineyards using low-cost hardware and agronomic sensorics (IVINEYARD)	Spain	TECNALIA
6.Development and validation of ICT Flexibility Platform Prototype (FlexenPlat)	Lithuania	INTECHCENTRAS
7.Printing with butts (PWB)	Estonia	UTARTU
8. Small electronics and batteries collection (SEBC)	Poland	CTU
